

February 2017

Hello,

At the Community Learning Disability Team, we know that it is important to provide good quality services to all our patients.

We can only do this by listening to you. We want to know what you think of the services we offer.

We have asked the North East Health Quality Checkers Team to find out what our patients think about the care we provide. North East Health Quality Checkers is based at Skills for People.

We have included some information about the Health Quality Checkers Team and the different ways you can tell us what you think.

We hope you will take part and let us know what you think.

If you have any questions you can contact me.

Thank you so much for your help.

Yours faithfully,

Aileen Boulton
